

Regional Coach

Bowl Canada is looking to expand the Regional Coaching Network with the identification of up to three additional Regional Coaches.

The purpose of the Regional Coach Network is to create formal linkages between the national High Performance Program and what is happening in regional development across the country. This network also assists in developing coaching resources that will reach more aspiring athletes throughout the nation and help support the growth of the game at the regional level.

Regional Coaches are expected to be NCCP Performance Coach certified or willing to actively work towards this certification. A description of the expected roles and responsibilities is available here: <https://bowlscanada.com/wp-content/uploads/2022/11/2022-Regional-Coach-Job-Description.pdf>

Former national team athletes interested in coaching are encouraged to apply. Interested candidates should submit their resume and cover letter directly to High Performance Manager Don Caswell via email (dcaswell@bowlscanada.com) no later than December 9, 2022. Only candidates selected for an interview will be contacted.
